

## Basic equipment to bring to all lessons

---

**Your books:** Check your timetable each evening and pack your bag for the following day with the correct exercise and textbooks.

**Your planner:** You must bring your student planner to school every day and use it to record all homework set.

**A pen, pencil and ruler:** After your books these are the most important.

**Coloured pencils:** most teachers would prefer you use these instead of felt tip pens.

**An eraser, pencil sharpener and glue stick:** Although not essential these items are very useful to have.

**Mobile Device:** If you have your own mobile device and have signed the AUP you are allowed to bring this to school.

Individual subjects might also require you to have specific equipment. For example:

**Mathematics:** A pair of compasses, a protractor, a set square, a scientific calculator.

**Food Technology:** Ingredients will be required for cooking and students will be given a list well in advance. Please write them into the planner.

### **Completing and presenting your written work:**

- Use a ruler to underline the date and title
- Write in blue or black ink
- Draw in pencil
- Cross out mistakes with a single straight line.
